31 In Government Order No.5451-2/Med.51-06-5 dated 22nd December 1906, an allowance of Rs.100 per mensem was sanctioned to Mr. V. Abboy Naidu, Assistant Surgeon, so long as he continues in charge of the Vaccine Institute, the Lunatic and Leper Asylums. Consequent on the transfer of the Leper Asylum to the new buildings on the Magadi road in September 1907, a question was raised in the Secretariat as to the continuance or reduction of the allowance. In his letter No.G.34 dated 19th July 1909, the Senior Surgeon states that the allowance of Rs.100 should not be reduced on account of the transfer of lepers to Magadi Camp, that the lepers were a mere casual charge and that their presence or absence did not affect the responsibilities of Mr. Abboy Naidu.

In reply to your letter No. 167/Med.6-09-1 dated 7-2-1909, anent the continuance of the allowance to Assistant Surgeon Mr. V. Abboy Naidu, I have the honor to state that I do not think that the allowance of Rs. 100/- a month should be curtailed in the least on account of the transfer of the lepers to Magadi Camp. The lepers were a mere casual charge, their presence or absence hardly at all affecting the responsibilities of Mr. Abboy Naidu. If Mr. Abboy Naidu's sole charge were the Lunatic Asylum he would still deserve the full allowance. But in addition to this he conducts the Vaccine Institute most efficiently and I venture to assert that there is not a Government in

Sir,

With reference to your docket No. 1723 edl.6-09-3 dated 16-8-09 calling for certain information in re the Leper Asylum and the Vaccine Institute, I have the honor to state (1) that the Leper Asylum was transferred to the new buildings on the Magadi Road on the afternoon of the 16th Sept. 07 (2) that there is no special authority under which the Health Officer, Bangalore City is now in charge of Leper Asylum The arrangement was ordered by me. A Health Officer should, in my opinion, always remain a Medical officer as well. Without any opportunity of studying disease, (infectious & contagious) he will very rapidly grow rusty in these matters and relapse in time to the level of the Sanitary Inspector. In some of the most important towns in England the Health officer is in actual complete -- charge of the contagious Hospital (Sanitary Hospital as it is sometimes called) with the best results. For this reason I wanted our Health Officers to have Sanitary Hospital charges as well as purely prevertive work though the Hospital charge is often preventive work in the truest sense and the best course that suggested itself to me was to appoint our Health Officers to supreme charge of these institutions (3) that the number of Lepers & Lunatics in the respective Asylums at the time of the transfer of

the Leper Asylum to the Nagadi Road was 19 (14 males and 5 females) and 212 (149 males & 63 females) respectively. The average number of lepers in the Leper Asylum since its transfer to the new building to the year ending 30th June 09 is 22.19, (17.87 & 4.32 females) The stay of lepers in the asylum being purely voluntary, their numbers ~~being~~ Vary a good deal ~~ch~~ chiefly according to the state of the weather. They come in good numbers in wet weather.

4. As to para 4 of your comminication I herewith enclose copy of No. 194 of 30-9-09 from the Superintendent of the lunatic ~~asylum~~ and Vaccine Institute to me which treats the matter sufficiently fully. I agree with his opinion when he says that a whole time officer is not at present necessary for the -- working of the Vaccine Institute. The Superintendent omits one of his most important duties - which however I know he regularly performs, namely the testing of Vaccine paste by vaccination on claves. The only infallible test for vaccine is the vaccination test. Does the material produce a normal vesicle or not? If it does then it is good material, if not then it is the reverse. So not only have samples of stock to be pericdically tested in this way, but samples returned by vaccinators as being inefficient have also to be similarly tested.

5. I enclose a statement of the amount of material annually turned out; & its value since 1892, as well as the Medical officers in charge at different times.

Letter No. 194 dated 30-9-09 from the Superintendent, Vaccine Institute, Bangalore to the Sanitary Commissioner.

With reference to No. 1723 Med. 6-09-3 dated 16- -09 from the Secretary to Govt. forwarded with your memo No.1318 -19 dated 15-9-09, I have the honor to state that:-

(1) as per copies of correspondence herewith submitted the lepers were sent to the new buildings in charge of Hospital Asst. H.Krishna Jetty on 16-9-09 and the Sany. Commr. was requested to appoint the Superintendent of Nagadi camp or the Health Officer, Bangalore City, to be in charge of them ther and authorize him to sign the pay and the contingent bill every month instead of the Senior Surgeon in charge of the Leper Asylum.

2 the number of lunatic was then 212 (149 males & 63 females) and the number of lepers was 19 (14 males & 5 femal s)

( ) Mr. Palpu was in charge of the ~~Institute~~ vaccine Institute only from 20-11-91 to 5-8-94. From 6-8-94 to 1798-98 he was in addition, Superintendent of Medical Stores and asylums. During this period he had two assistants of the gazetted officers grade to help him, as noted in the margin There is no record in this office stating definitely what the duties of the Superintendent or his assistants were during the time r Palpu was in charge of the vaccine Institute. (4)

(5) The following is a statement of the duties erformed by the Superintendent now.

(a) Inspection of calves before purchase & subsequent examination every day.

(b) Inoculation of calves & watching the course of development of the vesicles, morning & evening; and the disposal of the calves after use.

(c) Gathering of vesicular matter at the opportune moment.

* (4) When I was inoculating calves and gathering vaccine lymph in the Vaccine Institute, Bangalore, I was in charge of the Leper Asylum, and also looking after the sick in the Asylum, and Bangalore Jail, and checking the supplies and preparing in the store rooms in the Medical Stores.

(d) Supervision of pulping and preserving vaccine in lanoline.

(e) Supervision of loading of vaccine into convenient tubes

read above should be curtailed ~~in the least~~
on account of the transfer of the Leper Asylum
~~Officer~~ to the new buildings on the
Nagapr road in Sept'07, as he is still in charge
of the Lunatic Asylum the charge
of the Leper Asylum having been only
a mere casual ~~appointment~~ charge
Order thereon 6305-6 Med 6-09-6 dy 26-1-10.

~~I concurrence with the Senior~~
~~Surgeon~~ Govt direct that the allowce
of Rs 100 per mensem sanctioned to Mr Abbay
Naidu ~~has been drawing under the~~
~~authority of~~ in the Govt order of the 22d
December'06 should be continued to him without
reduction, but subject to the condition
that it will be liable to be withdrawn
